TO WHOM IT MAY CONCERN

Dear Sir,

**Re : HAROLD ROBINSON**

Harold Robinson has been providing training in maintenance management and root cause analysis to our engineering personnel during 2017. The training has all been done in-company at our training centre in Brakpan.

Harold's training has been very practical and delegates have derived substantial benefit from it. As part of the training, delegates brought problems from the plant and applied the learning principles to these which really helped their understanding.

We will continue to use him for further training and I recommend him strongly for any training in your company.

Yours faithfully
